

Hakomatic B 1050

NEW

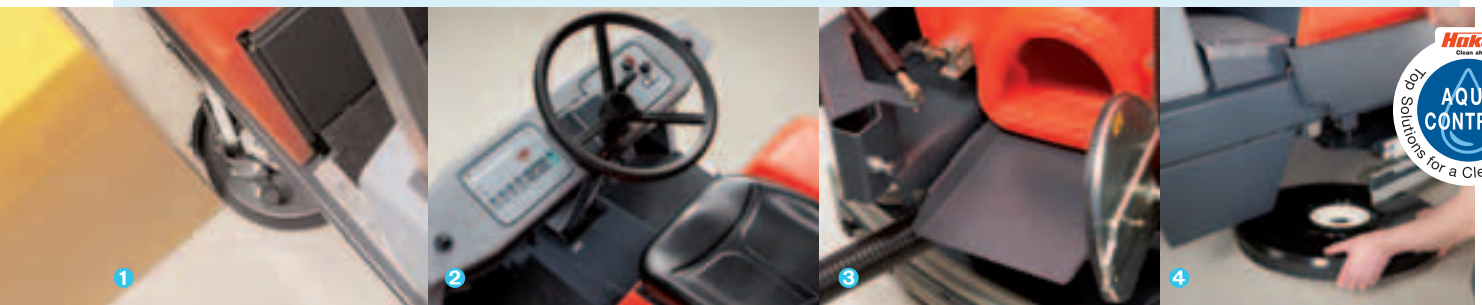

Powerful, manoeuvrable,
highly productive.

Contract
Cleaning

The advantages at a glance:

Hakomatic B 1050: Intensive scrubbing and perfect vacuuming in one operation; whilst comfortably seated. In shopping arcades, in multi-storey car parks or in logistics and industrial areas. Optimum cleanliness even in inaccessible areas close to edges thanks to side scrubbing unit ① (Option, at the same time increasing the working width to 118 cm. Extremely long running time with only one battery charge.

Technical Data Hakomatic B 1050

Working width without/with side scrubbing unit (option)	cm	102/118
Squeegee width	cm	126
Total power/output, drive motor	W	2000
Maximum climbing ability	%	12
Working speed	km/h	7,2
Total power/output, suction motor	W	1270
Brush diameter/Number of brushes	cm/units	53/2
Total power/output, brush motor	W	2 x 700
Tank concept	Solid wall	
Area performance, theoretical	m ² /h	7.140
Clean/dirty water tank	litres	185/185
Rated voltage/Total power/output	Volts/kW	36/4,67
Width with squeegee/length with squeegee	cm	126/215
Weight, empty without battery/wet with battery	kg	707/1445

- Comfortable ergonomic workplace for fatigue-free work. Handy: you can access the cockpit from both sides. ②
Single button operation, all operating elements are arranged clearly and understandably.
- Excellent accessibility for maintenance purposes. Large opening for quick and easy tank cleaning. ③
- The Hako Aqua Control System saves water and cleaning agent – TÜV tested and confirmed – by up to 50%. ④

We reserve the right to change shape, colour and design in the interests of continued technical development.
